I do have a couple of requests of and for you:

FEEDBACK

How was this program experience for you?

I would appreciate your feedback about your journey and your experience of this program, for my own peace of mind and for my learning. Please share with me what happened for you. What has been your inner and outer experience?

Be honest.

Also, let me know what worked, what didn't, what you would like differently or additionally.

I welcome any celebrations, testimonials, positive feedback too, so definitely let me know any of that!
